

## Industrial Water, Waste & Sewage Group

August 19, 2016

Dear Industrial Water, Waste & Sewage Group Members:

The Industrial Water, Waste & Sewage Group (IWWSG) provides both networking opportunities and an educational forum for its members regarding a wide scope of environmental topics and issues.

IWWSG continues to be a relevant organization and an institution in the Chicago environmental professional community by sharing knowledge and building lasting relationships between regulators, regulated industry and service providers. Over the last few months the IWWSG Steering Committee has been planning an exciting schedule, including tours, prestigious speakers, and information on topics of interest to the professional environmental community.

I am pleased to announce the schedule for the IWWSG 2016-2017 season:

---

**September 21, 2016**

Goose Island Brewery Tour and Dinner  
Susanne Malec-McKenna, PhD

---

Please visit the (soon to be completed), newly re-designed IWWSG web site [www.iwwsg.org](http://www.iwwsg.org) for current information on upcoming meetings, posted speaker presentations and member links.

Thank you for your continued support by providing input for future topics & venues. I wish you a prosperous 2016 – 2017 season!

Warmest Regards,

Greg Denny  
IWWSG Chairman
